The choice of the Chamber will be endorsed by the community result that the whole Swatow guild petitioned the greatest change in hinese affairs which has generally, Mr. MacEwen being universally recognised, to use the homely phrase employed by the aneakers on Siturday, as the right man in the right place. The value his services in connection with the sanitary legislation now before the Council are too. well known to call for special reference · Although in various matters of detail in connaction with this subject his views may have. been out of accord with those of property owners, he has shown a willingness at all times to look at both sides of a question and to accept modifications, where good reason could be shown. But the most important feature in Mr. MacEwen's policy is his advocator of democratic as emposed to autocratic interests. His avious bies are with the community rather than with the officials, and be has consistently advocated the grant to the ratepagers of a share in the control of their own affirs. Mr. MacEwen also possesses the merit of activity and energy, and never finds it too much trouble to be brought up at the Police Court and charged take up,a question that he thinks may be usefully ventilated. the Chinese Government, seeing their revenue from this source dwindling to an amount scarce worth consideration, may deem it advisable to put some check on the growth of the poppy in the Central Kingdom. If they intend to adopt this course they will do well to commence before the native opium interest becomes so vast and its power so material as to be able to offer serious and determined opposition to any new taxation. That further taxation of the native opium would prove extremely unwelcome to those interested in its production and sale may be gathered from the fact that a

Sir Henry Holland, in his speech on the question of the Australian naval situation, stated that the sanction of the Imperial Parliament was necessary before any increased expenditure could be incurred, not that such sanction was unnecessary, as proviously telegraphed. Sir Henry added that the Covernment was bound in good faith to uphold the naval scheme as settled by the Imperial Conference. ENGLAND AND TONGA.

LONDON, 21st August. The British Government has decided, with re- Focobow ... 80.51 85. 54 88 2 0 ference to Tongan affairs, not to deport Mr. Baker, the Premier, but to closely watch his actions. THE NEW HEBRIDES. London, 21st August.

A letter appears in the Paris Temps from Mr. Higginson, of Noumea, in which he maintains that the New Hebrides have always been regarded as a dependency of New Caledonia. He points out that the French element in the New Hebrides group has absorbed the interests of Englighton there since 1882. The French troops had aved many Europeans from being massacred and has prevented any cannibalism from going on. He states that the English missionaries endeavour to inculcate a feeling of hatred on the part of the natives against the French. and endeavour to maintain a factious agitation on this subject in Australia. Mr. Higginson advocates as a settlement of the question that England should establish a protectorate over the Banks and Santa Cruz islands, and that France should be allowed to annex the New Hebrides, and enter into an engagement to cease sending her. convicts to the Pacific. LONDON, 23rd August.

In the House of Commons last night, Mr. Labouchere asked the Under Secretary for Foreign Affairs what action her Majesty's Government had taken relative to French colonistswho had been sent to the New Hebrides since the French occupation of those islands. Sir James Fergusson stated that there was nothing to prevent either French or British subjects sottling in the New Hebrides.

The existence of the typhoon was first indicated in the China Coast Meteorological Register on the morning of the lith according to the last paragraph of chapter II of the "Law of Storms" (page 9). On the morning of the lith it was stated that it was N. of Luzon. Directions to hoist the dram were issued at 11.70 s.m. At 7 p.m. the following notice was issued:—"Typhoon approaching Formoss Channel. Strong N.E. winds rejuried from at those there." At 8.60 a.m. on the 17th directions to first the gun one round were given. The following notices were issued on the 17th: (at 1920 a.m.) "Typhoon S.E. of Hongkong apparently moving north-westward," (at 11.6 a.m.) "Only a strong pale is expected or a storm; at any rate it is not likely to blow so hard as in 1881," (at 1.60 p.m.) "Typhoon S.W. of Hongkong apparently moving north-westward." At 12.41 p.m. directions were given to hoist the south cone and at 1.03 p.m. to hoist the ball. Owing to the absence of direct telegraphic connection with Hongkong and with the other stations carlier or more complete information was not available.
